Want a wedding dress that is not too bright or too pale? Here, I suggest the whitest wedding dress you can own. (But you may or may not have to ask your dermatologist what white is – ask another question). The Museum does not necessarily endorse the views or goods and services offered by Ask Medical Office.

Questions are answered in our online Medicare & Medicaid Guide. You should consult with your medical provider about your medical and health care needs. Congratulations! The \$20/month cost of the old hardware is reduced by \$100 for the new hardware, so there is no issue of even higher monthly costs by switching to the new hardware. If you are currently using Apple hardware and you are willing to switch, they offer nice discounts on new Apple hardware. I assume you could also use a combination of metal and polymer to build a special case for the phone, of course... but that would be really difficult to explain in the U.S. (I have not seen any such case) and that would also be completely inappropriate because it is much more likely that metal and polymer would only be compatible in that one orientation. What the case should do is to allow the SIM card, or at least the contacts, to be inserted and ejected like in any standard card-reader. It should be easy to be sure, by checking the contacts, that the chip is ready for new (pre-paid) use in the SIM card, and it should be easy to eject the SIM card and keep the contacts clean. If the case comes open, let it. If you've been searching for a way to
