

In this lesson, you will learn how to create and customize a sample AutoCAD P&ID software project. We'll show you how to customize the title block to include . NET, and also look at how to resize objects using the Move tool. Creating Software Project Samples Creating software project samples is the easiest way to quickly learn how to use the new features of AutoCAD P&ID. First, we create a new sample software project and use it to create drawings. We can then modify the pattern and apply the settings to other designs.
