(Representational Image) In order to control the level of drug abuse in the state, the Uttar Pradesh government has decided to close down 10,000 cybercafes which are illegally used for smuggling drugs. As per a Times of India report, the Chief Minister Yogi Adityanath has said that 10,000 cybercafes have been closed in the state. The Chief Minister made this announcement while speaking to reporters at a press conference organised by the UP State Drugs Control Board. "As per the information we have received, the amount of drugs in these cybercafes is 20,000-25,000 kilos of heroin," the Chief Minister said. A board member, Santosh, revealed that 7,000 cybercafes were closed down in June this year. "We are closing these cybercafes one by one as the information we are getting from our field teams is that most of them are the dens of smugglers," he added. The officer further said that drug abuse in the state had increased in recent times and it is necessary to eliminate the menace. "One in two people who visited cybercafes had consumed drugs, which means there are 18-20 crore addicts in the state," the officer added. The police officer further stated that the police, along with the cyber police, were taking the help of special teams to monitor those who use cybercafes for drug peddling. This comes a few days after the Kashi police arrested a 13-year-old girl for alleged drug peddling in a cybercafes in Varanasi. In recent years, optical communication 77a5ca646e

Ruckzuck Watermark Crack+ Torrent [Updated]

Elegant icon designer. The application that can provide you with all the necessary tools to create the best quality icons. Using the program, you can create icons of any shape. What's New in the Ruckzuck Watermark?

Ruckzuck Watermark is a simple tool that allows you to add a watermark to your images in a few easy steps. Add text to images with ease In order to apply a watermark, you need to drag the text content from the font palette onto the targeted image. The program will then automatically adjust the text orientation to suit the image, while you can specify its position, transparency, font face, size and color contrast using the user interface. The watermark is then added to the target image and saved into the designated folder, without any further assistance. Get rid of watermarks with ease You can remove the watermark in two easy steps. All you need to do is drag the watermark from the font palette and the program will provide you with the proper settings, which can be adjusted according to your preferences. Get the best results by applying multiple watermarks In order to

achieve the best results, you can either apply multiple watermarks at a time or add them to an existing file and carry out a batch process. This program can help you add text watermarks to your images quickly and easily. To sum it up, it is a handy tool that is easy to use and offers quality results.
