MyPhotoLab Free [Win/Mac] (April-2022)

===== myPhotoLab is a complete collection of five photo processing apps that can be tested separately as well, namely Passport Photo Maker, Photo Art Studio, Photo Collage Maker, Photo Calendar Creator and Business Card Maker. A complete collection of five distinct apps The suite comes with all the five installers into an archive, which need installation in order to be accessed. You can exclude any apps from the setup. The supported image formats are TIF, GIF, JPG, PCX, BMP, ICO, TGA, and PSD. Design passport-sized photos fast and easy Passport Photo Maker comes wrapped in a modern interface divided into a file browser, the working area, and the options, all in plain sight. Simply select the portrait image you want, move it to the proper position to get the best results, and edit it. The app provides some predefined ID types to choose from, along with the option to manually resize the item. In addition, you can adjust the brightness, contrast, saturation, and color balance, as well as retouch it, using the color brush, clone stamp, burn tool, sharpen and blur tools. If the clothes you wore when the picture was taken are not appropriate for a passport photo, you can replace them with something else, since the passport maker has a predefined set of clothes for both men and women, which can be altered. Customize and enhance favorite pictures Photo Art Studio lets you apply corrections and enhancements to your favorite pictures, by adjusting the brightness, saturation, and contrast sliders, along with hue, lightness, and color balance. Plus, you can rotate and crop images. Other features worth mentioning are filters, frames, greeting cards (with templates), borders, collages, masks, clipart, and captions. Create unique albums using your preferred images Photo Collage Maker comes in handy when you want to create customized image portfolios with your precious memories. It has a step-by-step wizard to help easily create new projects. It includes a few templates, like children, wedding or seasons. The page can be configured. Besides the standard image editing options, the collage creator has clipart, text boxes, and mask customization properties. The output may be saved as JPG, BMP, and PNG
