KeyMacro is an add-in for the Microsoft Word editor. It allows you to create macros that repeat a sequence of operations on a document. It provides hundreds of pre-defined macro templates that you can customize using the editor and modify. This feature also lets you easily create your own templates, using the editor's built-in text editing and formatting tools. Main Features:

- Create and edit existing templates for specific scenarios (e.g. repeating the same series of actions for every paragraph, or for every page in a document)
- Choose how to start and end the macro and customize the final text
- Access macros directly from the Run and Insert menus, and use them in your document
- Include content from the Windows Clipboard and use it as a macro parameter
- Enhance existing macros using code from the Windows API Control features
- Create Macros directly from a set of actions that you select from the list of available actions
- Create more than one macro with a single click on the "Add New Macro" button
- Create Macros from selected text
- Insert code from the Windows API into the generated macro
- Control what happens when the macro is run, from a Message box to an option menu
- Format the text in the macro code
- Get macro text as an environment variable

Basic skills

- Familiarity with Microsoft Word
- Basic knowledge of coding languages and techniques
- Excel skills

Notes

- Macro code is written using VBA; please refer to the Code and Reference tool in the Microsoft Office suite

and you can access the program's functions by performing a right-click mouse operation on the utility's icon from the system tray. Configure a new alarm by specifying the name, entering a user-defined time and date, as well as enabling the recurrence parameters (e.g. Sunday, Monday, Tuesday). Plus, you can make the tool display a custom text message, play a preset sound notification, or upload an audio file from your computer (WAV or MP3 file format). Manage and set alarms, edit or delete the selected ones, adjust the size and opacity of the clock, make the utility remain on top of other programs, allow mouse clicks to be performed through the clock, move the clock, or lock its position on the desktop, and choose between different skins for changing the looks of the analogue clock.

OMG! I love these! I started making them from instructions found on the internet. It's a nice, simple dough to make and make cute doughnuts for snacks and quick meals. My first batch of these were absolutely delicious, my kids and I could not stop eating them. I think I will make them again soon. Thanks for the recipe!

Reviewer: These were amazing! My husband said they were better than Dunkin Donuts. I've added a few suggestions to make the best doughnuts
