ExpressAlbum Crack + Torrent (Activation Code) Free [Mac/Win]

ExpressAlbum is a free software application developed by expressSoft. It is an easy and powerful application for creating digital photo albums. ExpressAlbum allows you to create, edit, design and print digital photo albums, and it is a quite small software package that won't eat up a lot of your time and disk space. ExpressAlbum lets you create great looking photo books or photo greeting cards from your computer in an easy and fast way, by simply adding pictures. Once a picture is selected it can be resized or cropped, or text written on it. You can easily add a title or a description. You can import photos from either your computer's drive or from image files using a built in file browser, and from your digital camera or scanner. ExpressAlbum will also import pictures from Microsoft Excel files. You can then add multiple pictures to each page of the album, and change their size and orientation. Once you have finished creating the album you can preview it on your computer monitor, or print it and keep it as a hard copy. You can also burn your digital photo book to a CD. The software comes with a built-in image editor which allows you to apply simple effects to your pictures, such as exposure, contrast and color. You can import pictures from Microsoft Excel files, and also import pictures from digital cameras and scanners, if they are in jpeg, tiff or bmp formats. The software also offers easy ways of selecting photos. You can use the thumb screen to view a smaller version of your picture in a preview window, or use a slider to select multiple photos at once. You can also view the files in thumbnail view. The software provides a basic editing function to crop photos. It also includes a built-in picture database to speed up the selection process, and to allow you to choose the pictures that you want. You can also select photos from a file browser. You can create, edit, design and print digital photo albums, and it is a quite small software package that won't eat up a lot of your time and disk space. ExpressAlbum Rating: 59 ExpressAlbum Price: Free Overall ExpressAlbum Score: (2 votes) How would you rate ExpressAlbum? My review: Your review: *HTML Tags are not allowed.
