Negotiations have been going on for weeks, but the

President has set a deadline of December 31 for any deal to be reached. He's calling it the last chance to avoid an economic cliff. As many as 85% of Americans believe the country is on the brink of a second recession, according to an NPR/PBS

NewsHour/Marist poll. Most believe that the economy is in trouble because of the "fiscal cliff" and joblessness. Seventy-eight percent of voters blame President Obama for the economy, while only 13% blame Republicans and 13% blame the Democrats. SEE ALSO: How to Save America's Economy – The Breakdown of the Tax & Spend Cycle Fox News' latest poll also shows Americans losing confidence in the economy, with 53% now saying the economy is "getting worse." It's the highest level of pessimism about the economy since November 2008, just before the Great Recession began. More and more Americans are pushing

for a fix to the fiscal cliff. Fifty-four percent of registered voters agree with the President that we need to tackle the country's fiscal problems, but only 36% agree with Obama that cutting government spending and raising taxes will help the economy. ## **What's New in the?**

Accessing the Planning area and Planning grids: The new Planning and Engineering areas are available in different views in 3D. There's a new Planning grid that combines AutoCAD's current Planning and 3D axes (it's not the same as the 3D axes). Also, in a 3D drawing, you can create a Planning view in addition to a 2D view. More: 2D views, new shapes and tools, and more. Video: Our AutoCAD 2020: What's new in AutoCAD 2023 video outlines the features and changes in AutoCAD 2023. Faster Printing and PDF Exports: Improvements in the printing and PDF-generation toolset, with an improved algorithm that speeds up the process of generating exportable files. In addition, you can now define the layout for your paper in an AutoCAD sheet; this is helpful when the paper layout is not your standard rectangular layout, such as when it has been labeled with text (a title, for example). What's new in AutoCAD 2023: What's new in AutoCAD 2023 includes the following:

- Core work in AutoCAD is now more efficient; for example, you no longer have to open a feature class for editing before you can view it.
- You can also open a feature class and not have to enter properties for the new features it contains.
- The standard menu now includes a file name from a folder, making it easier to use recent changes to the folder structure.
- You can view the menu items in any ribbon tab and switch between tabs as you edit your drawing, which makes

---

ribbon usage more intuitive. • You can drag a file from a folder directly onto the toolbar, making file management easier. • When you open a new drawing, you can view the existing drawing. • You can load non-exporting drawings directly into your new AutoCAD (now part of the new DesignCenter feature), which makes it easier to work with an existing model. • You can display the file properties in the context menu (see the screenshot) for an associated file, which makes it easier to work with files of different file types. • You can also create a new shape from an existing feature class or from any point, which makes it easier to design a template
