**System Requirements For AutoCAD:**

The game has been built with a number of requirements in mind. Fast, simple and stable! I want the game to perform at a level comparable to having finished the full alpha-test on my home PC, while still giving you the experience of a well-designed Steam game. Use the latest open-source Linux drivers for your graphics card! See the article I made about that here: Minimal animation for animation. Smooth framerate, no lag, etc. Include a dock-window system for your client. You can
