WWE 2K22 adds new AI and MAME features. AI-controlled opponents are more proactive in their gameplay - making more plays, passing it more accurately, and keeping the ball more consistently - which will keep matches

competitive. In addition, MAME – which stands for “Mapping Attributes to Enhance Releasability” – is being enhanced to provide a “more realistic ball control on off-the-ball hits,” and also improves player sprinting. A new feature in NBA 2K19 is Shooting Mechanics, which takes input from the player, assistant coach, and statistics from last season. This allows players to create unique player traits and experiences specific to them, such as ball-handling, passing, and shooting mechanics unique to LeBron James. 2K Sports unveiled two new additions to NBA 2K18: Nightlife Mode and MyCAREER. In the NBA 2K18 MyCAREER mode, players are able to take a more active role in the game’s in-game experience, featuring season- and career-long progression systems. The NBA 2K18 MyCAREER mode allows players to make their own “Dream Season” or “Dream Career,” all while enjoying the most authentic and complete NBA 2K experience. Users are able to customize their player from draft to game, and perform their own modes of play, all while carrying their personality in the mode’s

progression system. NBA 2K18 MyCAREER mode also includes the integration of real-world teams and real-world player agents, allowing the player to take on a player's role in the NBA, while also gaining experience points and earning endorsements to make their player even better, week to week. The NBA 2K18 MyCAREER mode also includes "My Team," a system of customization that allows players to create their own color scheme, jersey, name, and logo for their in-game squad. The MyTeam logo is available in the Main Menu and Gameplay, and players can customize the MyTeam color scheme, presenting various contrast options. New in the NBA 2K18 MyCAREER mode are players' personal basketball camps, featuring thorough training during each camp. In addition, players can create a "Founder" of their own camp, and then enjoy the rewards of being "Founders" and the benefits of their camps.

What's New in FIFA Ultimate Team? – The changes in Ultimate Team mode are all about balance in the game. Ultimate Team has long been a gamble for players, with some real luck going their way and others going cold and seeing little progress in their career. This has been an issue because the vast majority of the time players are sacrificing balance or stats in order to get that final piece to their Ultimate Team puzzle. In FIFA 22, for the first time, your progress through Ultimate Team will only be limited by what you are willing to sacrifice.

Player Improvements – Five big adjustments

will be made to the way players play. We have reworked player behaviour in Ultimate Team to give more focus to creating the balanced team you want for your particular gameplan.

Changed the way players receive through balls in order to focus on faster, safer attacking play. Adjusted how players score to increase the chance of getting a goal after a shot, and making their scoring accuracy better. Giving the ball to a player in a bad position (or no position at all) will no longer send the player into a bad position. All players will now have an Active AI, meaning they will do things while they're not being controlled by a human.

STADIUMS Always on the Forefront - FIFA 22 redefines what stadium presentation, customization and atmosphere mean. You can now play host to matches in the best stadiums in the world and build your very own stadium, or start with a basic four-sided club office. Whatever your vision, you can do it all - and it's more immersive than ever before.

International Stadiums - Always on the Forefront - FIFA 22 redefines what stadium presentation, customization and atmosphere

mean. You can now play host to matches in the best stadiums in the world and build your very own stadium, or start with a basic four-sided club office. Whatever your vision, you can do it all – and it’s more immersive than ever before. Return to the Home Ground – With the return to the home ground in career mode, you’ll be playing at your favourite stadium that has been built specifically for you. You’ll be able to watch a match at your place, choose your own unique pitch to decide on, and use your own club’s media and merchandise to set your stadium apart from the crowd. Social Integration – Always on the Forefront

What's new:

- **Revamped FIFA Moments - Revamp the classic Moments and Anamorphic images in FIFA Moments with new textures and audio, along with new cutscenes.**
- **Kick it up a notch - Get your fans ready for Juventus v Ajax with an extra cutscene, and a new tension meter for the entire match that will rise if your team stifles the opponent.**
- **Players undergoing a transformation - Explore the team’s depth with new talents for the likes of Giorgio Chiellini, Nadal and Messi.**
- **More enhancements for former FIFA - Tackles can now be challenged and more formations have been added to the**

position editor for all leagues except Serie A.

- **The return of the goalkeeper engine - The return of goalkeepers in FIFA 22 might provide some fun challenges.**

Additional enhancements and fixes for FIFA 18:

- **We fixed the fidgety player animation during penalties.**
- **Players warmed up in warm up mode will now be more responsive when pressing buttons.**
- **Interface - The confirmation when players are trying to pass in drop off zones has been improved.**
- **Intuitive jumping - We fixed an issue where players were not jumping into the ground as naturally as intended.**
- **Game sharing - The share menu was locked to the wrong option for the USA, so that's now fixed too.**

Technical support :

- **FIFA 17 or later (starting with the most recent game)**
- **Manufacturer registered copy of any game in your possession.**
- **Biometric Passport** If you are experiencing problems getting into FIFA Ultimate Team, please email support@valve.com and we will investigate the problem further. Please include your game's serial number or valid proof of purchase date for your game, as well as proof of support on the latest supported operating system. If you played and liked your last support, you won't need to provide any of those things. We always enjoy hearing from players, so we'd love to see you in the forums, Twitter or Reddit.
