### What's New In?

1. Chatting in VnLanChat is as easy as writing a message to a text file in Notepad. When you post a message, the message is added to the bottom of the text file. When all participants have posted a response, the users can read the message by simply opening the file in any text editor. It is very simple and straightforward. 2. It's supports attachments. So you can attach a file to your message. 3. VnLanChat does not require a dedicated LAN server (like Mirc does). It uses the LAN itself to send and receive messages. VnLanChat is independent of any server, and can send/receive messages without problems. 4. Use the notification tray icon to stay connected to the chat. A popup window will alert you when a message is posted. If you are not around you can still read it. 5. Private chat too! With VnLanChat you can also send and receive private messages. Just click the text icon on the bar and type "private". If your connection to the LAN drops, VnLanChat will detect it. When re-connecting, you won't lose any messages that were sent. To resend a message click on the message indicator. CNet Reviews VnLanChat Chat Program Overview VnLanChat is a chat utility designed to be used over a local area network. This program is primarily designed for use in a home or small business environment where multiple people are connected in real-time over the LAN. VnLanChat allows multiple users to chat simultaneously, send attachments and save and display chat history. It is also free from any server and requires no local client. VnLanChat is a versatile program for chatting, and with a customizable interface, allows users to create their own.... I would always try to get out to court, but unless I was able to, I would just watch the proceedings at home on TV. I hope this is over soon and we can all go home," one of the plaintiffs, Geraldine Jalloh, said. One of the lawyers representing the victims, Lee Conlin, said the sexual assaults did not stop when the ailing AC finished and accused the cash-strapped ministry of failing to protect his victims. He called the case a "healthcare disaster", adding: "These women were sent to a man
