C Of M The Demons, a great. C Of M The Demons, by Games.Q: Modifying text in ArcPy: how to ensure field is updated? I have several tables with fields a with a field named descrip (i.e., text). I want to replace the text in certain fields with another text. I've tried this: #I create a list of fields fields = arcpy.ListFields('table2') #I loop through and run my function for f in fields: if f.name == 'descrip': if "replaced with" in f.description: f.description = "new descrip" It works, but only on the first field (i.e., when it's the first field in the list it sees). It doesn't process any of the other fields. I've also tried this: #I create a list of fields fields = arcpy.ListFields('table2') #I loop through and run my function for f in fields: if f.name == 'descrip': if "replaced with" in f.description: f.description = "new desc

Data recovery is easier, faster, and · Month: February 2017 On February 1, more than 1,000 people from more than 1,500 schools and universities across the country will “walk out” of school to “raise awareness of climate change.” The students will be joined by their teachers. They will be marching in the streets and may be engaged in civil disobedience. What is the purpose of this march? They will be protesting against the policies of the Trump Administration. According to the organizers, the “official position of March for Our Lives” is that the United States government is failing to protect the environment. The federal government
