You are a police officer Tom Bailey. You have spent two months dealing with a case of mysterious murders at the infamous San Verginy Asylum for the last two months. You had no clues about who the murderer is. However, one day, you observed the excitement of the inmates at the asylum. No one really has a clue about what exactly is going on there and why do they have to be locked up? After visiting the asylum, you found out that in that asylum, there were strange experiments that were conducted to some of the inmates, which resulted in the person getting insane. Everything that you had seen was connected to murders and you figured out that the person who is committing the murders is trying to kill some of the doctors at the asylum. You decided to investigate into this case, you don't want the same thing to happen to you and your family, which is why you have to find out who is killing these doctors and why is he doing that. You are going to need the help of some of the inmates in order to figure out this mystery, as some of them are insane and some of them are not. You will be

going through the asylum with your revolver on hand. You will meet some characters in the game. For example, if you are speaking with the cook, he might tell you his life story. You will encounter lot of people in this city who are in possession of some information about the investigation. Some of the characters will have some clues about the matter, which you will have to find out. You will have to find out which characters are trustworthy and which ones aren't. One person might help you in some things, but you might find out after some time that he is actually trying to escape from you and he just wanted to look for some help. There is a variety of puzzles in the game, which will keep you occupied until you solve the mystery. You will have to look for documents and stay away from the enemies. You might find a revolver on the body of the person. If you use the revolver, the building will burn down and you will lose the building. You will have to use your intuition to solve the puzzles that you face. You will have to come to some conclusions about the situation in order to find out the truth. Killer's Note: I, simply left this case

## What's new:

**The Realms of Magic series is a series of the role-playing video games developed and published by German video game developer Shiny Entertainment with a turn-based tactics style. The series is an evolution of the Shadok series and features a number of improvements, including better graphics, providing spell descriptions, and fully animated reenactments. The main focus of the series are the increasingly larger areas connected to the larger number of available spells. Outside regions Shiny Entertainment has made a number of expansions for the game that were released alongside the game and came with a CD-ROM containing the areas. Players can also visit the previously unplayable areas provided that they are sold separately as included with the games or the Expansion Files. The detail level of the clothing and indoor and outdoor buildings is much more varied than in later games such as the Assassin's Creed series, and a game can take place in an endless fantasy world created by hand. The furniture and decorations are a bit more varied as well. In addition, the basic appearance changes from time to time. The earlier games in the Realms series take place on or around the imaginary island of Mnaish Isles, as in earlier games in the Shadok series. The map of the Mnaish Isles differs between Realms of Magic and other later entries in the series. Casey Casey is a young novice who is searching for a way to save her best friend Rachael. After a brief introduction in Castle Highlands, the story continues outside as Casey arrives on the Hogwartian Peninsula to help Merlin defeat the Prussian army in Beyond the Mnaish Isles. Upon leaving the Mnaish Isles, Casey encounters Lydia, Princess of the "Isles of Distress", and rescues her from the evil Pirate Drake. The adventure later continues in Pandora's Gate, the first adventure outside the Mnaish Isles to be released for the Realms series. The story of Casey involves exploring Candlekeep, alongside the varied architecture, giving players a real feeling of adventure. Tapis Rouge Believing that everything starts and ends in the Mnaish Isles, Casey asks for help from the evil Prince Chad. This results in**

**Casey's turning her back on wizardry, setting off on a quest with Rachael to find her father, the King of the Mnaish Isles. One day, Casey visits Merlington Spires, the city of sorcerers, and the second game in the Realms series**
