CodevisionAVR is a comprehensive C library for the Atmel AVR microcontrollers. The library contains more than 100 of functions that are already used in all Codevision software. In this section, you will find information about the basic functions of. CodevisionAVR is a C library for the Atmel AVR microcontrollers.. software and work on the developing board frequently.Q: Performance of SelectMany with IQueryable I was reading about LINQ select many operator and I came across this article: This article advises to consider SelectMany as performance bottleneck if you have a very large result. I am trying to make a performance analysis with my code but I couldn't come up with any conclusion. I tried to compare the execution time of my code with SelectMany version and with my version with large result count. Here is my code: public class DatabaseContext { public IQueryable Obter() { return from a in \_context.Contratos join b in \_context.CADASTROS on a.IDCADASTRO equals b.IDCADASTRO select new Cadastro {
