Starting with AutoCAD 2004, the application supports .NET applications for Windows. The Extended Support Agreement for AutoCAD continues to expire in the end of 2020. Specialty or Add-on applications AutoCAD is a multi-platform, cross-platform, solution for product development, design, and drafting. AutoCAD's drawing standard is the DXF. Autodesk Exchange Apps, Autodesk Fusion 360 and Autodesk Inventor support the DXF file format. Also with AutoCAD 2018 and later the file format can be viewed and edited with Microsoft Excel. The DXF file format is based on the 1982 Drawing Interchange Format (DIF) standard. In 2011, Autodesk purchased the intellectual property rights to the DIF standard and the

DXF file format. AutoCAD also supports Autodesk Exchange API, used in Autodesk Exchange Apps, which allows developers to integrate AutoCAD into their software. This feature allows developers to extract information from a drawing into a software or database application. The current version of Autodesk Exchange API is V6. AutoCAD for Architecture (AutoCAD Architecture or AutoArch) is a series of software tools that are primarily used for architectural design. AutoArch products include AutoArch Architect, AutoArch Manager, and AutoArch. These tools are licensed on a per-seat basis. AutoArch Architect and AutoArch Manager software and drivers are available for Windows and Mac, and AutoArch Architect software and drivers are available for Windows and Linux. AutoCAD Architecture software runs on a desktop computer with a Graphical Processing Unit (GPU) (rendering) and a central processing unit (CPU) (calculation). Autodesk Exchange Apps or Autodesk Fusion 360 or Autodesk Inventor are used to create the rendering and can also be used for calculation. AutoCAD for Design is another series of software tools for architecture and interior design. These tools include AutoCAD 3D for Architectural Design, AutoCAD Electrical, AutoCAD Electrical for Mechanical Drafting, AutoCAD Electrical for Plumbing Drafting, and AutoCAD Electrical for Commercial Interior Design. These products are licensed on a per-seat basis. AutoCAD for Manufacturing, AutoCAD Mechanical, is another series of software tools for product design and manufacturing. The issue of data collection by Facebook, and how to combat the same, was raised by the Department of Justice in a recently filed court document. In it, the U.S. Department of Justice urged that Facebook be given an extension to provide the government with the information it wants. Advertisement The DOJ requests an additional 45 days to respond to the Federal Bureau of Investigation's (FBI) renewed motion to compel further information, which they first filed in September. "The government is examining the matter," the DOJ said in a press release. "We are in the very early stages of our research, and we are collecting information on how companies are storing and using data from users," said FBI Assistant Director David Chemerinsky in the statement. "We want to be assured that data that is collected and stored is only being used to protect the public's safety and is not being stored or shared in ways that could harm anyone's privacy." The DOJ has not revealed its reason for the extension request, though Facebook said that it is their "standard practice to comply" with the FBI's request. Facebook CEO Mark Zuckerberg, however, revealed the reason for the extension, explaining that he believed the court should give Facebook more time to comply with the FBI's request. "This is important work and I think we should always act as though the good we do matters," Zuckerberg said. "The police should always have access to relevant data and we are taking this seriously." Facebook said they would work to expand their security and ensure their data was
