“This is undoubtedly the most ambitious boardgame of its genre that we know of at the moment. And it is a boardgame not only in terms of board. It contains an enormous amount of material that we designed as graphic illustrations and even as comic strip images. Together with our friend and graphic artist Thomas Cole we are trying to give expression to the whole fantasy world of Savage!” In The Planet of the Vicious Creatures you take control of the mighty character Mokrizik who has gone on a journey to find the Heart of the Planet of the Vicious Creatures. He is accompanied on this quest by a loyal love interest as well as a troop of Fighters from two exotic Races. Mokrizik has to dig deep within himself to resist the inner call of the savage world and to keep his true heart on this journey. Features: "boardgame" with lots of puzzles for you to solve in our illusionary fantasy world graphic illustrations by the inimitable Thomas Cole tragedy and humor, horror and lust... everything goes in this adventure online multiplayer How to get The Planet of the Vicious Creatures via Steam 1. Click on the image above to purchase on Steam 2. Follow the instructions on the screen 3. The download will start automatically 4. Install the game and start playing 5. Enjoy the game in Early Access The backstory... “The plot” as we call it has its roots in our previous adventure games “The Little Planet of All Evil” and “Labyrinth of the Abject”. The story of Mokrizik, that we will unfold in The Planet of the Vicious Creatures, is not the story of the unknown little little little Planet of All Evil. It is the story of Mokrizik, the hero, who grew from a helpless little boy into the mighty warrior; Mokrizik, who had to conquer his own will to tear off the baby-skin from the giant crab-princess and finally return to the civilized world as an adult. Making a game is no easy task and we had a lot of help with this: Thomas Cole, the composer for “The Little Planet of All Evil” and “Labyrinth of the Abject”, has written the music. Our dear friend and old gamer friend and fellow player of “The Little Planet of All Evil” Klaus G

In the Interest of F.A.M., supra. The statutory requirement of § 12-4-9.2(A)(1), N.M.S.A. 1953 (Repl.Vol. 1964), has been stated as a "clear mandate" that the adoptive parents be found to be fit persons to have custody, and no sound discretion can be exercised in such a matter except in clear abuse of discretion. In applying the concept of what constitutes a "clear abuse of discretion," we must, of course, closely construe the first sentence in § 12-4-9.2(A)(1) quoted above. While a natural parent by the adoption of a child waives all his rights as a natural parent as to the child, he cannot be deprived of the

**What's new in Luminosity:**

Welcome to the reader! Its a web reader for Hacker News that allows you to read by yourself, is easy to use, and can connect to Hacker News from anywhere. Using the Hacker News Reader you'll be able to find the newest stories from Hacker News based on recent activity of users as well as communities from across the globe. Using the User Details page you'll be able to see who submitted the link you clicked on as well as who commented on the thread. For the following explanations we'll be using the latest version of the reader. Click on the image below to visit the reader. About the Hacker News Reader The Hacker News Reader is the easiest way to read Hacker News. You can use it from anywhere and read on the go. The site has ~70% of the content from Hacker News. The reader takes only a couple steps to complete and allows you to retain all of the functionality of the Hacker News website. Privacy The reader does not currently store account information locally on your computer. Your user details will be stored by github and only used for authenticating your sessions on the reader. Other than that your data is as safe as with any other browser on the web. About the Content Each Hacker News link in the reader is stripped of all text and replaced with a link. This greatly speeds up reading and allows you to quickly jump back into reading the story you wanted to read. Using a data lastifier you can find the newest Hacker News items and the last few comments since it last updated. It has been updated to operate off Github and not store your user details locally. If you view a Hacker News item that you pasted into the reader it will update any following items, so it's not usually necessary for you to copy and paste the link to the item you want to read. Features On-the-fly comments appear at the end of the post and update when a comment is added. When a comment is posted it shows up at the top of the comments view. If you have multiple accounts the latest comments since the last you login will show up on a separate tab, allowing you to easily switch between activity from different accounts. It can open links in new tabs if you have multiple accounts. There's a lot to try out with the reader. Scroll down

God of equilibrium: V3 Public Demo will be launched on Jul.10th. [www.godofequilibrium.com](http://www.godofequilibrium.com) It is a detective game that put you into a world with unknown environment. Every item is interactive in this environment and you can find many useful items to help you solving puzzles and escaping from this crazy room. But be careful! you must escape from this world. TRANSLATION Italian and English The game's name is translated as god of equilibrium Screenshots It is not much that you can see but one picture that I can show to you is the second scene in the game. How to play (Time Saver Mode) Some people have a hard time figuring out how to solve these room. So I designed a time saver mode, if you were not trapped in these room for a long time and have a lot of clues, you can save it. Here are what I mean: If you are in the room for awhile and your objective is to get all the clues, you can find you need to interact with the things in the room, just press the +button and you will be in the mode that when you exit that room you will be given a plus button. Once you press that you will go back to your game. When you have more time, just exit from the room. The image below explains the time saver mode in a better way: How to play (Penalty Time Mode) If you are a time saver mode, you need to focus on solving the puzzles. But sometimes in this game, you have to deal with lots of penalty or low health and you need some items to solve this. That is what the penalty time mode is for. Just exit the room and in the next game, your penalty time will change to 30 seconds. You will be able to see the amount of time penalty in the top right corner (You will see the amount of time is in 1/60min). The blue box on the top right corner will be hidden and you can see a red arrow. When you click this red arrow you will go back to the scene where the red box is. You need to figure out how to solve this puzzle or just let time go by. There is one tricky part. When you exit the room and you need to figure out how to solve this puzzles with time penalty.
