The setting of the game is the Heartland of Canada. Here lies the mystical forest of Ramwood, now claimed by the evil king who wants to expand his power to the end of the world. But he has underestimated the ferocity of the wild forest and its guardian, the forest fox Demolition. The power of the ancient stones that lie deep in the woods is used to support a conflict between the canid and the cat, which is not yet settled. Bloody Apocalypse on Steam For Free Apr 10, 2014 The Bloody Apocalypse horror roguelike was released on steam yesterday and what a way to bring you this news. I just got some time to play this game yesterday and it was crazy. It just took me a while to get used to the controls and interface but the game held my attention the entire time, at least 10+ hours. In a time when big games like ROGUE and DEX IV are released every year i'm glad to have a game that is actually worth my time. I have to admit i bought this game because of the concept but i'm glad it also got a fair free release. Features: Evolving game experience – play the epic base game, challenge it's later iteration, or try out another iteration that unlocks more secrets. If there is something you don't like don't worry, just create a new account and you will get a free copy of it. Game is under active development – for all you fans you can also create your own accounts and help support the game. Random generated exploration – each experience is different because at each new level you are facing a different set of enemies, quests and puzzles. Features Explore this frozen wild abandoned mine and collect the gold you will need to survive Train your character and level it up to enhance your combat skills Flee from hungry beasts and a vicious wolverine Play the first few days to unlock the options and support the game with donations (Dev Resp: I will make a blog post when the game is 100% FREE. If you want to support the game by buying a copy you don't have to donate to get a free copy but the game will give you a nice extra gift of some character sprites and a profile page.) Choices in Classic Roguelike Mar 26, 2014 Now that i'm a few weeks into my journey trough tabletop roguelikes i can proudly say i've played most

The Changeling Interceptor is an agile, intimidating, and upgraded Battroid. Its main weapon, the Ion Blaster, lets the Changeling zap you with a stream of ionized plasma. Additionally, the Changeling can launch devastating rocket packs from its armpits, which deal enormous damage to smaller foes. Once you know how to use the Battroid's arsenal, you'll be able to quickly eliminate hordes of enemies and destroy large structures. Story The year is 2194. Earth is at peace, but the world is soon to become aware of the existence of a dangerous race of alien invaders named the Changeling. The Changeling was created by an advanced civilization who had conquered the planet Arxus, and now they are regrouping and planning to once again attack the world. While the majority of Earth's military resources are dedicated to protecting the planet, scientists and civilians have been working on a secret project to build a small fleet of Changeling Interceptors to defend the population from the alien invaders. However, those efforts are badly needed, the Changeling is working feverishly to construct a secret base underground on the coast of Maine, a contaminated area and the site of many underground nuclear testing missions. Game Features Arranged Gameplay: The gameplay is very much like the classic RC game series, you will slowly gain the abilities of a Battroid, each new ability and skill unlocked during the game will significantly affect and alter your Battroid's gameplay. Every weapon fired can be customized based on ammo, armor, and timing and can be made to do more or less damage depending on the equipment picked by the player. Each stage has set objectives to accomplish in order to complete the game, such as destroy a certain type of enemy or reach a certain distance. Play any song you like in the game, Changeling Interceptor comes with a mod that supports mp3 audio files. Online Multiplayer for 1-4 players Endless Mode Earn more points after completing battles, by unlocking more weapons and armor Play with other people worldwide Online rank system so you'll know how you stack up against others Collide for up to four players on the same PlayStation Network account for any online or offline multiplayer games Find someone who's playing on the PS4 or on their TV using the PS Vita system Game Modes Single Player: Try to get as high score as you c9d1549cdd

Rocket Riot is simple arcade fun candy coated with brilliant pixel art. You play as Agent X, a secret agent on a mission to apprehend a mad scientist in hopes of curing Agent Y's severe asthma condition. As soon as Agent X makes it to the laboratory of the arch fiend, the nightmare begins. Blast your way through hordes of evil robots with your trusty sniper rifle as you try to save Agent Y. It may not be your favorite kind of game, but it's almost certainly the best-looking game on the shelf, and it's easy to see why. © 2014 Rocket Riot All rights reserved. Rocket Riot is the property of Precursor Games. First-person shooter, Flash, PC, Windows. Main Features: Play against intelligent A.I. Players have to beat the game without using the secondary 'ability' of simple brawler mechanics. Eliminate your enemies before their allies finish killing you. Multiplayer mode for up to 4 players You can control up to 4 players on the same machine. Stunning pixel art is the new "look" The game's visuals are simple but clean. Larger-than-life, high-res sprites are fun and challenging to play High-res spriting lets us keep the pixel art look, while still giving us the ability to utilize the same sprites for multiple types of enemies. A full soundtrack by Zylphile Zylphile's music brings a bright, vibrant aesthetic to the game.
