""Viking Squad is a game that brings a whole new meaning to the concept of beat-em-ups. It definitely has a lot of fun play-style, and good humor. Viking Squad is a well done game with a ton of entertaining elements. This game is a great buy for anybody who likes beat-em-ups or games in general."4.7/5 GametomeSomething New In Beat-Em-Up Games - Game Crashers "Well done, Viking Squad!"7.0/10 IGNWhat Is It? - GameSpotViking Squad is a beat-em-up/action hybrid. You play as a Viking Warrior (and only that one character), embarking on a quest to rescue your wife and daughter from a group of invading Norwegians. Its massive environments and well-developed cast of characters helped catapult it to the success it's enjoyed."10.0/10 IGNBEST Indie Games of the Week - GamezeboThe beautifully hand-drawn art really shines in Viking Squad. The animation is crisp, the puzzles are difficult but not frustrating, and the music and sound design is perfectly appropriate for this kind of game. Simply put, it's a great beat-em-up that deserves your attention."Viking Squad is going to be the cause of many a great wailing from the mouths of the

oppressed."3.9/5 IndieGamingMagazineKing Of The Hill - Indiegaming.comViking Squad is just so much fun. The gameplay is so simple that it feels like they are dragging out the game as much as they can, but at the same time there are so many different things happening at once that there are still two playthroughs per chapter to get through. It's like they know they can keep upping the ante as the game continues and then once you get to the fourth chapter they have you beat, you'll be left wondering how you could have expected to survive all that fun."First impressions - BigMeatballComics.comThe challenges are level-based and can get a little frustrating at times. When a challenge is easier than the previous one, you'll feel like they're taking you out too soon, but you get another crack at it anyway. At the same time, a new set of challenges can ramp up and make your first run through even more challenging. So, there's that and the constant enemy onslaught too."7.5/10 GameJoltEmpire Of Eg

## **What's new in Viking Squad:**

**Leader): Barathrum: ES Brief Description: Possibly a battlemage given their mirror armor. The shadows filled the western half of the city and flew in a wedge through the sky. The guilds of Barathrum are visible as you walk through the starting market. The arakkoa are in an organized guild named the Barathrum Descendants. Barbarians numbering roughly ten to fifteen forge their own way through the city. The desecraters are free and are known to be the biggest and most savage of the barbarian factions. Snake minds aren't called outsiders for nothing. The patrols which consist of the local authorities and the Unchained Bards of Barathrum. Raids of the city have been rising steadily and will continue to do so through the action of raids and trade offensives. The Citadel The Citadel is a behemoth of a city filled with rows of barracks and fortress, and offered few public buildings. Instead the main city is a maze of prisons and brothels, the most notorious being the Burial Grounds. The dilapidated structure has for years served as the city's only cemetery. The second to last large building before the gates is the Citadel's Guard Stable. The stables are generally empty save for one use. The is where barracks accommodates the city's standing army and all uniforms and equipment are found here. In the royal citadel are the party's first contact with the locals. Two pikemen meet the party outside of the public buildings. The pikemen are particularly concerned with uncovering the contents of the country chests, and take great delight in finding any coin, ring, or sapphire in someone else's bag. The two pikemen then give the party access to the city's public market. In it, the party will encounter twice as many pikemen under the command of one of the city's generals. Market Day Petroglyphs and trade are currently the heralds of Barathrum, and the market is a great opportunity for survival. This market is very dangerous as it is the heart of Barathrum. Raiders and cultists of all stripes descend upon the city to this point. A hefty bounty is put on the head of any traveller to the city. The first thing the party should do is ascertain the current situation of the city. The nearest safe outpost is the Hawk** ↔
