Roblox is an online game platform and game creation system developed by Roblox Corporation that allows users to program games and play games created by other users. Created by David Baszucki and Erik Cassel in 2004 and released in 2006, the platform hosts user-created games of multiple genres coded in the programming language Lua. For most of Roblox's history, it was relatively small, both as a platform and a company. Roblox began to grow rapidly in the second half of the 2010s, and this growth has been accelerated by the COVID-19 pandemic. The platform is free to play, with in-game purchases available through a virtual currency called Robux. As of August 2020, Roblox had more than 164 million monthly active users, including more than half of all American children under 16. Although Roblox has received generally positive reviews from critics, it has faced criticism for its moderation, microtransactions, and exploitative practices directed toward children. Growth: In 2013, Roblox's revenue from mobile and other apps reached US\$4 million and its Robux virtual currency reached \$12 million. Since then, Roblox's revenue has grown exponentially, surpassing \$1 billion in 2019. In 2019, Roblox had an estimated yearly revenue of \$1.2 billion and an estimated monthly active users of over 40 million, including 11.4 million children under the age of 13. That year, Roblox also saw 117 million downloaded virtual items purchased with Robux and had a total of more than 8,400 games. Roblox is a primarily free-to-play platform. However, since 2018, the Robux currency has been disabled for most games, and many free-to-play games allow purchases with real money. In the third quarter of 2019, Roblox charged \$6,450 per month in fees, about one-third of its revenue for the year. Roblox continues to grow at an incredible rate. Recently, it signed a partnership agreement with Disney, allowing users to play versions of Disney-owned franchises such as Captain Marvel in their Roblox games. Business model: For most of Roblox's history, it was relatively small, both as a platform and a company. Roblox began to grow rapidly in the second half of the 2010s, and this growth has been accelerated by the COVID-19 pandemic. Roblox is a free-to-play platform
