Okay I will make it short for beginners (My sister and I havent read this book yet, still we read and were kind of confused. But this was the first time I bought a book online. I was pretty sure I was going to get a good book but I was shocked when I downloaded it. It took me almost three weeks to download, due to my new modem. Anyway, the above book had this mysterious atmosphere to it. I could feel the flow and hurry of the characters. I would like to tell you that I love all of Dan Brown's books (Since I was a child even). I love the quotes in his books and almost everything about them. I liked the new twist in this book. The book was inspired from the Catholic faith. The main character in the story was a priest (I think). I got a lot of information from this story. In a way, it was a filler book or a little masterpiece (I'm not sure). In this book, the story used a lot of symbolism and a little anatomy. If you ask me what I liked about this book, I will tell you that Dan Brown has great writing skills. I think he is a great author and I can never forget his books. Dan Brown also has great ideas about psychology. If you like this book, you will also enjoy his other books. He has published a number of novels. Some of his novels have been published in other languages. He has written many books about different topics. His books are published by different publishers around the world. If you want to buy this book, you can buy it from your neighborhood bookstore. You can also buy a copy from some online bookstores.
