Question: Hi, Does anyone know how to reset the BIOS password on the. to bios with F10 key is restricted with the very Password I am trying to bypass or brake. Answer: Through HP's website if you go to and register your product, you can download PDF forms that you can fill out and send to support. They will give you the password to reset your BIOS to factory settings. Answer: I think that the easiest is to start the laptop with the power cable connected. There are some tools out there that do this with the power cable but i just personally prefer this. You can do this 2 ways: By booting Windows XP and using the disk cleanup tool to remove all the manufacturer installed software. By removing the CMOS battery for around 10 minutes until it loses all charge and then putting it back in. This should remove the BIOS password. Welsh language groups in north Wales had been in contact with Plaid Cymru MPs, the Labour leader said. Labour said the language should be protected in schools, hospitals, courts and law enforcement agencies. "We're supportive of what Welsh language organisations do," Mr Corbyn said. The UK's Welsh Government has said all of its key policies are shared by Plaid Cymru, as it has been the party's de facto devolved administration for years. The Wales Office currently provides support for the language in Welsh-speaking communities, and co-funded the Welsh Language Panel - an expert independent body set up to advise the UK government on the language. Plaid Cymru's Senedd leader Elfyn Llwyd said his party had been in talks with Labour about the possibility of Welsh language support for MPs.
